What is an American Style (Framed) Cabinet?

What is an American Style (Framed) Cabinet?

American cabinet manufacturers have traditionally built cabinets using a framed construction. In this type of cabinet construction, the rails and stiles form a 3/4 inch face "frame" at the front of the cabinet box. This frame resembles a flat picture frame attached to the door front, adding dimension to the door front. The cabinet doors are secured to the edge of the frame, which gives the cabinet strength and sturdiness.

HomeCo's American Style cabinets are made of solid wood doors face frames, and drawer faces with plywood construction cabinet boxes. The wood-dominant feel of the cabinets will bring your kitchen an elegant and timeless effect. To increase storage space efficiency, Our face-framed cabinet does not come with a center stile, allowing easier accessibility than other face-framed cabinets in the industry. HomeCo's face framed cabinets offer both traditional and contemporary designs.

- E. 3/4" Solid plywood laminated in white with adjustable pegs
- F. Adjustable soft-close concealed hinges
- G. Soft-close undermount drawer slides

* Materials may vary across different door styles

What is a European Style (Frameless) Cabinet?

Frameless cabinet construction is a European way of manufacturing cabinets that has become popular among customers seeking simple and more contemporary cabinet designs. Frameless cabinetry is sometimes called "full access cabinet" because it offers greater accessibility by eliminating the face frame. Instead, it relies on thicker box construction for stability. Only full overlay doors can be used, with hinges attached directly to the sides of the cabinet box.

Our European Style line of cabinets offers flat panel door styles with a variety of color selections from solid gloss colors to textured wood grain colors. We use high-quality 3/4" thick solid plywood for cabinet box construction to ensure maximum durability. European Style is great for achieving a more modern, simple yet high-end look in your kitchen and bathrooms.

YOUR CABINETS
YOUR OWN WAY

We welcome custom project orders and OEM lines

Custom Solutions for Bulk Orders

As both a manufacturer and distributor, we are equipped to even go beyond our standard warehouse stock to meet the demands of your large-scale projects.

For bulk orders, our in-house manufacturing capabilities allow us to create customized door designs, work with specific materials, and produce non-standard sizes tailored to your needs. Whether you are outfitting multi-unit developments, managing high-volume renovation projects or starting your own product lines, we provide the flexibility and expertise to bring your vision to life.

With our commitment to precision, durability, and exceptional quality, all at competitive pricing, you can trust us to deliver solutions that meet your exact specifications and stay within budget.

A product that can withstand the test of time

Quartz a high-quality surface material, with strong durability and stain resistance, the use of natural quartz synthesis, so that it has acid resistance, stain resistance, scratch resistance, heat resistance and mold resistance, these characteristics make proline the best choice of surface materials.

Quartz combines high quality with innovation and offers unlimited color choices to bring artistry into your home.
